**September 25<sup>th</sup>, 2015**  
**Washington, DC**  
**Conference call: (888) 512-3142, Passcode: 93772904#**

**Goal:**

- The purpose of the meeting is to develop a realistic plan for improving EHRs to better facilitate the delivery of colorectal cancer screening and follow up, including for those with family history.

**Objectives:**

1. Develop a draft consensus document detailing needed improvements in standard EHR features and performance related to the delivery of CRC screening and follow up.
2. Develop the minimum data elements that EHRs should capture to assist in the delivery of CRC screening and follow up.
3. Develop an action plan for spurring EHR improvement for CRC screening and follow-up.
