ROUNDTABLE

Strategic Priority Team Meeting
November 15, 2023
3:30–5:00pm ET

Today's Agenda Items

- 1 Welcome & Introductions
- 2 Strategic Priority Team Meeting Objectives
- 3 Spotlight AMGA Learning Collaborative
- 4 Group Discussion
- 5 Next Steps

Spotlight: AMGA Learning Collaborative

Collaborative Measures

- Overall CRC screening rates 45-75
- Completion of timely colonoscopy after a + stool-based test
- Identification of a health disparity that will be addressed
- Pilot a shared decision-making tool for helping the unscreened decide on a screening method

Motivating Needs	Ranking	Selected
Identification and screening of the population of patients aged 45 to 75 for CRC screening.	1	11
Timely follow up after abnormal non-colonoscopy CRC screening tests.	2	11
Physicians and professional staff education about CRC screening.	7	3
Patient awareness and education about CRC, screening and prevention.	3	8
Clinical workflow/pathway for CRC screening.	5	8
Clinical Decision Support Tools within EHR	8	0
Disparities in Care	4	20
Choice-based shared decision-making	6	20

Planned Initial Interventions

- EHR interoperability
- Emphasis on mailed FIT campaigns
- Increase mt-sDNA use/interface for ordering/resulting
- Focus on 45-49
 - **Outreach**
 - **Patient education/awareness**
- Pop health focus
 - **Targeting health inequity will increase overall screening performance**
- Working with Gynecology
 - **Especially important for 45-49 population**

Health Equity

- Race & Ethnicity
 - **Asian Americans**
 - **African Americans**
 - **Latino Americans**
 - **American Indian, Alaska Native, Native Hawaiian, Pacific Islander**
- Insurance- Medicaid
- Community or Charity Care Clinic
- Rural Communities
- **45-49 age group**

Identified Barriers

Staffing Shortages/
Provider Engagement
