***Screening for Colon Cancer
can save your life.***

ANNUAL FIT KIT DUE!

Dear _____,

It's that time of year again! Our records show that you are due for your annual FIT (fecal immunochemical test) to screen for colorectal cancer.

This simple test can be done in the comfort of your own home and can find small amounts of hidden blood in your poop/anuk that can be a sign of colorectal cancer.

Please use the kit and do the test as soon as possible. We have included simple instructions to follow. Don't forget to label the collection tube!

If your test result is positive, you will likely need a colonoscopy and further follow up with your doctor. If your test result is negative, then you're done! The test is due once per year, so we'll contact you when it's time for your next one.

Thank you for making your health a priority!

Sincerely,

BBAHC Endoscopy Clinic
(907)-842-9222
