

Order Colonoscopy through Diagnostic Imaging eCW v11

1. Access Diagnostic Imaging (DI) from the Patient Hub or Progress Note
2. Select Colonoscopy in the DI test name field
3. Enter the Reason in the Reason field
4. Select Add and search for the Diagnosis Code to add to the Assessment field

The screenshot displays the eClinicalWorks Diagnostic Imaging (DI) order entry interface. The patient information at the top includes the name 'Test, Stephanie', date of birth 'Sep 4, 1960 (60 yo F)', and account number 'Acc No. 9137'. The provider is 'Willis, Sam, Multi' and the facility is 'Health Center Network of New York, Inc.'. The assigned user is 'eclinicalworks.support'. The DI test name is 'Colonoscopy' and the reason is 'screening colonoscopy'. The order date is '08/05/2021' and the interface status is 'Interface Status'. The assessments section shows 'Z12.11 Screening for colon cancer' selected. The interface also includes tabs for 'Order & Collection', 'Results', 'Graph', and 'Progress Notes', and buttons for 'Reports', 'Print', 'Options', 'Midmark Ecg', 'OK', and 'Cancel'.

Note: Creating a DI order for colonoscopy is important to satisfy CDS and quality measures. Organizations may create a referral in addition to the DI order but it does not satisfy CDSS alerts.

Colonoscopy Results Received

1. Close the loop/complete the DI order for the colonoscopy once the report is received
2. Open the outstanding DI Order for the patient and click on the Results tab
3. Check the “Received” Box, select the “Result Date” and the “Performed Date”
4. Attach the paper report by clicking on the Reports button and add the scanned document. (This will display a paperclip icon and makes it easy to see the result was received for this test)
5. If support staff are entering the received date and attaching the report, route the Open DI with the attached document to the provider by changing the Assigned To field to the provider’s name.

Diagnostic Imaging TEST, Stephanie Sep 4, 1960 (60 yo F) Acc No. 9137

Test, Stephanie, 60 Y F 09/04/1960 Yes 111-111-1111 Acc#: 9137

Provider: Willis, Sam, Multi High Priority Canceled Status: Open Reviewed
 Facility: Health Center Network of New York, Inc Future Order In-House Don't Publish to Web Portal
 Assigned To: Rose, Stephanie
 DI: Colonoscopy

6. Once the Provider review the colonoscopy report, they will update the Result Drop down and mark the DI order as Reviewed.
7. Recommended: All results should be published to the patient portal. Ensure the “Don’t Publish to Web Portal” checkbox is unchecked.

The completed DI order can be added to the next Progress note from the DRTLA tab

Colorectal Screening Reports

You can create/access colorectal cancer screening reports from a variety of options

1. **HEDIS Dashboards** (Optional module for additional cost, however, this simplifies the reporting and allows you to quickly access patient details)
2. **EBO UDS Reports** (contact eCW Support to install latest version)
3. **Registry Quality Measure Reports** (Registry icon > Quality Measure Reports > Colorectal Cancer Screening) Provides aggregate reports

Quality Measure Reports

Run Date: 08/06/2021 ...

Measure Dictionary: Quality Measures

Measure Name: (701-CM)Colorectal cancer screening

Select Provider: ALL ...

Reporting Interval: Custom

Reporting End Date: 06/30/2021 ...

Reporting Begin Date: 07/01/2020 ...

Numerator: Number of patients in denominator who had a completed colonoscopy within 10 years up to and including the last day of the reporting period

Denominator: Number of unique patients, with a visit in the reporting period, ages 50-80

☐ Exclusions

Submit **Clear**

Cross Tabs: ☐ Facility ☐ PCP ☐ PCG ☐ Insurance ☐ Race/Ethnicity **Refine** **Export**

Release lock

To generate quality measure for historical dates, run migrate vitals utility for the specific date range. To migrate vitals click on Tools menu -> Migrate Vitals(Date Range) or go to Registry band -> Vitals tab -> click on Migrate Vitals

4. **Registry Reports** (Registry Icon > Registry) – create your own list of patients that have had a particular colorectal cancer screening or are due for a screening.

Registry

Demographics | Vitals | Labs/DI/Procedure | **ICD** | CPT | RX | Chief Complaints | Medical History | Imm/T.inj | Encounters | Structured Data Reports | Saved Reports | Referrals | Reports | Allergies

ICD Codes: Z12.11

Search Options: ☒ Search in Assessments ☐ Search in Problem List

Date Range: 08/06/2011 To 08/06/2021

Note: The Registry will only return results for patients with encounters.
