

# *Professional Education & Practice Implementation: Healthcare Systems*

Francis R Colangelo, MD,MS-HQS, FACP

**Team Charge:** *To identify and share promising implementation strategies by healthcare organizations to help clinicians and practice teams to improve colorectal cancer screening rates.*

# Strategic Priority Team Discussion Themes

- How do we as a SPT develop ideas that will take us to projects or a model?
- How do we learn from partners and members what the needs of health systems are?
- Can we capitalize on growing partnerships with AMGA and AAMA
- We must develop materials that are culturally appropriate and culturally competent.

# Activities Discussion

- Develop all clinic staff training
  - Include the entire primary care team so it's not completely on the shoulders of the provider.
  - Can be implemented into a learning management systems.
  - Certification or accreditation
  - Intervention can start prior to physician meeting with the patient
- Educational videos in the waiting room—waiting room slide set
- Resources to support and engage community health workers
- Awards and recognition program: NCCRT could organize, champion and recognize all practices engaged in this work

# Reflecting on 2022 and Looking Ahead to 2023

## *What Can This Group Do?*

- Develop resources specifically targeted to support health system
- Focus on follow-up colonoscopy
- All-clinic participation
- Standardized messaging
- Incentivize at many different levels
