Workshops

WORKSHOP #1

Risk Assessment and Screening To Detect Familial, Hereditary And Early Onset Colorectal Cancer: Putting Knowledge Into Action

Given the growing concern of the NCCRT about poor screening for those with a family history of CRC and the growing problem of early onset CRC, the NCCRT has commissioned a new primary care clinician's toolkit that aims to improve the ability of primary care clinicians to systematically collect, document, and act on a family history of CRC and adenomas polyps, while also educating clinicians on the need for more timely diagnostic testing for young adults who present with alarm signs or symptoms of CRC and ensuring that those patients receive a proper diagnostic work up. Come get an in depth look at the toolkit and participate in exercises that will help you think through how to apply it in practice.

Emily Edelman, MS, CGC, Associate Director, Clinical & Continuing Education, The Jackson Laboratory

Therese Ingram, MA, Senior Instructional Designer & Technologist, Clinical and Continuing Education, The Jackson Laboratory

WORKSHOP #2

Findings from NCCRT Market Research with the Unscreened about CRC Screening

Come hear an overview of the new NCCRT marketing research with the unscreened. Join this session for a fascinating look at the unscreened, what makes them a tougher audience than the rest of the population, and what triggers might motivate them to act from a communications perspective. The goal of this session is to provide effective messaging advice about reaching key populations if we are to get to an 80% screening rate.

Moderated by Anjee Davis, MPPA, President, Fight Colorectal Cancer, Co-Chair, NCCRT Public Awareness & Social Media Task Group and David Greenwald, MD, American College of Gastroenterology (ACG), Division of Gastroenterology, Montefiore Medical Center, Co-Chair NCCRT Public Awareness & Social Media Task Group

Bill Williard, Director, Marketing Research, American Cancer Society, Inc.

Michelle Aubertine, Project Manager, KS&R

WORKSHOP #3

Medicaid Best Practices around CRC Screening

The NCCRT has commissioned a new best practices guide that looks at how state Medicaid agencies have had success supporting and promoting CRC screening. Come

NATIONAL COLORECTAL CANCER ROUNDTABLE MEETING

hear what Medicaid agencies have to tell us about the importance of tracking and measuring, promoting testing options and developing a value-based purchasing measure for CRC.

Sian Goldson-Desabaye, MPH, DrPH, CPH, Health Policy Analyst, Planning Administration, Office of Health Care Financing, Maryland Department of Health

WORKSHOP #4

Costs, Decision and Colorectal Cancer Screening

Given the well-established complexity and confusion about the cost of CRC screening to patients, ACS CAN will be outlining the nuances of patient cost sharing requirements for CRC screening according to current laws and regulations, give an update on efforts to provide more coverage for patients, and share a hot-off-the-press cost analysis of federal colonoscopy copay legislation.

Stephanie Krenrich
Director, Federal Relations, American Cancer Society, Cancer Action Network

Dustin Perchal
Senior Grassroots Campaigns Manager, American Cancer Society Cancer Action Network

David Woodmansee
Director, State and Local Campaigns, Field Advocacy Operations, American Cancer Society Cancer Action Network

WORKSHOP #5

Electronic Health Record Best Practices for CRC Screening

This workshop will look at a new tool commissioned by the NCCRT and the National Association of Community Health Centers that documents best practices and workflows for colorectal cancer screening in electronic health records, while also discussing remaining challenges and opportunities for change.

Shelly Yu, MPH, Senior Analyst, Policy & Legislative Support, American Cancer Society Cancer Action Network, Inc. (moderator and presenter)

9:55 to 11:15 AM Workshops

WORKSHOP #1 Working with Employers

NATIONAL COLORECTAL CANCER ROUNDTABLE MEETING

This workshop will explore how employers can impact their employees' health through colorectal cancer screening interventions. The workshop will begin with a brief introduction to steps employers can take to increase screening rates at their company and then featured three partners who have implemented effective strategies. Speakers include special corporate guest presenters from Ameren and AT&T.

Lisa Roseland, Senior Manager, Healthcare and Benefits Operations, Ameren
AT&T (Invited)

WORKSHOP #2

Multicomponent interventions: Award Winning Programs

One exciting thing about the 80% by 2018 effort has been the proof of concept that evidence-based interventions work – especially when multiple strategies are implemented at the same time. Come hear about the impressive award-winning programs that have launched multiple component interventions – and have the rising screening rates to prove it!

WORKSHOP #4

How to More Effectively Magnify and Disseminate our Knowledge

NATIONAL COLORECTAL CANCER ROUNDTABLE MEETING

There is so much know-how amongst NCCRT members, but often we struggle to get good information off the shelf and into practice. In this workshop, we look at two examples of how NCCRT partners have disseminated best practices, creating a ripple effect in their communities.
